

AMENDMENTS TO THE CLAIMS

Please amend claims 1-5 by rewriting same to read as follows.

--1. (Currently Amended) An electronic device comprising:  
 a battery storing container having an opening for placing  
 a battery in and out of the battery storing container,  
 a recording medium storing part for detachably storing a  
 recording medium ~~detachably~~; and

a plurality of circuit boards constituting predetermined  
 circuits, wherein

said recording medium storing part and said plurality of  
 circuit boards are placed so as to surround [[the]] an outside  
 of said battery storing container except at said opening.

--2. (Currently Amended) The electronic device according  
 to claim 1, wherein one of said plurality of circuit boards  
 [[is]] comprises an image display unit.

--3. (Currently Amended) The electronic device according  
 to claim 1, wherein said battery storing container comprises  
 six external ~~planes~~ planar elements forming the outside  
 thereof, said opening is [[made]] formed in a first ~~external~~  
plane planar element of said six external planar elements, said  
 recording medium storing part is disposed in a second ~~external~~  
~~plane which~~ planar element that is perpendicular to said first

~~external-plane planar element~~, and one of said plurality of circuit boards ~~comprising~~ comprises an image display unit is and disposed in a third ~~external-plane~~ which planar element that is parallel to said second ~~external-plane~~ planar element and said circuit boards other than said image display unit are disposed in ~~other three~~ remaining ~~external-planes~~ planar elements other than said first to third ~~external-planes~~ planar elements.
